SUMMARY

Motivated and enthusiastic engineering graduate seeking an entry-level Java / Full-Stack Developer role. Strong foundation in Java, Spring Boot, React.js, and MySQL, with hands-on experience in building real-world academic and personal projects. Passionate about writing clean, scalable code and continuously improving technical skills.

EDUCATION

Karpagam Institute Of Technology
B.Tech- Information Technology

Coimbatore
Aug 2023 – May 2027

TECHNICAL SKILLS

Programming Languages: Java, Python, C, JavaScript

Frontend Technologies: React.js, HTML, CSS (Responsive Web Design)

Backend Technologies: Spring Boot, RESTful APIs, Microservices

Databases: MySQL (Schema Design, Query Optimization)

Concepts: OOP, Data Structures & Algorithms, MVC Architecture, REST APIs, CRUD Operations

Tools & Platforms: Git, GitHub, VS Code, MySQL Workbench

PROJECTS

Enterprise Resource Planning (ERP) Management System

Dec 2025 – Jan 2026

Technologies:

React.js – Spring Boot – MySQL

- Developed a scalable full-stack ERP system to automate core business operations
- Modeled and managed relational databases using MySQL, ensuring data integrity and optimized queries
- Engineered responsive, reusable UI components using React.js, improving user experience and maintainability.
- Finance: Built expense tracking, transaction management, and financial reporting features
- HR: Developed employee management and attendance tracking system
- Inventory: Implemented stock management and real-time item availability tracking
- Reports: Generated enterprise-level insights and analytics dashboards

Hospital Management System

Feb 2026 – Mar 2026

Technologies:

React.js – Spring Boot – MySQL

- Implemented CRUD operations using JdbcTemplate with optimized SQL queries
- Built and integrated RESTful APIs using Spring Boot for seamless frontend-backend communication
- Designed relational database schema with proper entity relationships and constraints
- Implemented CRUD operations using JdbcTemplate with optimized SQL queries
- Developed responsive UI components for patient registration, appointment booking, and doctor filtering
- Developed a full-stack hospital management system to manage patients, doctors, and appointments efficiently

CERTIFICATIONS

- AWS Academy Graduate – Cloud Foundations – AWS Academy
- Java Programming – Great Learning
- Building a Website with Node.js and Express.js – LinkedIn Learning
- Learning MongoDB – LinkedIn Learning
- SQL and Relational Databases 101 – IBM (Cognitive Class)
